BUSINESS INTELLIGENCE PROJECT

Un espace de collaboration pour la génération Y active

OBJECTIVE

The focus of this project will be on tracking employee performance across various subsidiaries and identifying top performers who deserve promotion, as well as determining which groups we need to focus on more to improve their productivity.

DESCRIPTION OF THE DATA SET

A large MNC has 9 broad verticals across the organization. One of the problems is identifying the right people for promotion and preparing them in time

THE FINAL PROMOTIONS ARE ONLY ANNOUNCED AFTER THE EVALUATION, AND THIS LEADS TO DELAYS IN THE TRANSITION TO NEW ROLES. HENCE, THE COMPANY NEEDS HELP IN IDENTIFYING THE ELIGIBLE CANDIDATES AT A PARTICULAR CHECKPOINT SO THAT THEY CAN EXPEDITE THE ENTIRE PROMOTION CYCLE. THE HEAD OF THE HR DEPARTMENT HAS ASSIGNED OUR TEAM THE TASK OF IDENTIFYING WHICH OF THESE EMPLOYEES ARE ELIGIBLE FOR THE PROMOTION.
